VOL. 33. INDEX.

Fasc. 1. (16. II. 1955.)

Pag.

A Method for Determination in Vivo of the Rate of Ciliary Beat and Mucous Flow in the Trachea. By T. DALHAMN 1

The Use of a Compressed Air Operated Shock Tube for Physiological Blast Research. By H. CELANDER, C.-J. CLEMEDSON, U. A. ERICSSON and H. I:SON HULTMAN 6

A Study on the Relation between the Duration of a Shock Wave and the Severity of the Blast Injury Produced by It. By H. CELANDER, C.-J. CLEMEDSON, U. A. ERICSSON and H. I:SON HULTMAN 14

Effects of Intrathecal Injections of Adrenaline and Noradrenaline on Blood Sugar and Blood Pressure in the Cat. By S.-O. LILJEDAHL 19

The Cerebral Blood Flow in Man Determined by the Use of Radioactive Krypton. By N. A. LASSEN and O. MUNCK 30

Observations on the Water and Electrolyte Metabolism in the Goat. By B. ANDERSSON 50

Note on the Influence of Hydrogen Ion Concentration Upon Swelling of Desheathed Peripheral Nerve. By B. NYSTRÖM and U. SÖDERBERG 66

Measurement of Total Body Water with Deuterium Oxide and Antipyrine. By H. LJUNGGREN 69

Sensitivity of the Normal and Denervated Parotid Gland to Chemical Agents. By R. STRÖMBLAD 83

Fasc. 2—3. (6. VI. 1955.)

Influence of Chemotherapeutics on the Metabolism of Bile Acids in the Intestine of Rats. By A. NORMAN 99

Vasoconstrictor Inhibition and Vasodilator Activation — Two Functionally Separate Vasodilator Mechanisms in the Skeletal Muscles. By P. LINDGREN and B. UVNÄS 108

Effect of Vestibular Nerve Section Upon the Spinal Influence of the Bulbar Reticular Formation. By B. E. GERNANDT and C.-A. THULIN 120

The Influence of Potassium on the Intestinal Absorption. By S. E. BUDOLFSEN 132

Pag.

Reproduction of the 3 per Second Spike and Wave EEG Pattern by Subcortical Stimulation in Cats. By D. H. INGVAR 137
Electrical Activity of Isolated Cortex in the Unanesthetized Cat with Intact Brain Stem. By D. H. INGVAR 151
Extraneuronal Influences Upon the Electrical Activity of Isolated Cortex Following Stimulation of the Reticular Activating System. By D. H. INGVAR 169
Influence of Visual Cortex on Light Impulses in the Brain Stem of the Unanesthetized Cat. By D. H. INGVAR 194
Ueber spezielle Charakteristika afferenter vagaler Herznerven-impulse und ihre Beziehungen zur Herzdynamik. Von A. und E. STRUPPLER 219
Investigations into the Euglena Gracilis Method for Quantitative Assay of Vitamin B_{12}. By H. P. ÖSTERGAARD KRISTENSEN ... 232
Effect of Irradiation with X-Rays on the Catabolism of Ethyl-alcohol in the Mouse. By G. HEVESY 238
The Electrocardiogram of Rabbits in Blast Injury. By A. CARLSTEN, C.-J. CLEMEDSON, and H. I:SON HULTMAN 243
Hyaluronic Acid and Hyaluronidase in the Aqueous Humour and the Angle of the Anterior Chamber. By E. H. BÁRÁNY and A. M. WOODIN 257

Fasc. 4. (19 VIII. 1955.)

A Method for the Standardization of Cholecystokinin in Vitro. By E. H. HULTMAN 291
A Critical Study of Sjöstrand's Method for Determination of Carboxy Hemoglobin, and the Total Hemoglobin Content of the Human Body. By H. DAHLSTRÖM 296
Intracellular Distribution of Brain Phospholipides. By V. POSBORG PETERSEN and M. SCHOU 309
The Response Spectrum of Taste Fibres in the Cat: A Single Fibre Analysis. By M. J. COHEN, S. HAGIWARA and Y. ZOTTERMAN .. 316
A Further Study of Polydipsia Evoked by Hypothalamic Stimulation in the Goat. By B. ANDERSSON and S. M. MCCANN 333
Studies on the Active Transport of Lithium in the Isolated Frog Skin. By K. ZERAHN 347
The Fluorescence of the Serum in Rats with Alloxan Diabetes and Cataract. I. Intensity Determinations. By S. E. BROLIN .. 359
A Microcuvette Designed for Absorption Measurements of Biological Fluids with High Density Values. By S. E. BROLIN 370
Uric Acid in Blood and Urine of Infants. By H. POULSEN 372
On a Fibrinolytic Enzyme in the Perilymph of Sharks. By C. E. JENSEN 378

Supplementum 117. Cerebellar Representation of High Threshold Afferents in the Splanchnic Nerve. By L. WIDÉN.

Pag.

Supplementum 118. By U. S. von Euler, I. Orwén, S. Hellner-Björkman, B. Zetterström, Chr. von Euler, I. Floding, R. 137 Eliasson and L. Stjärne.

Supplementum 119. The Function of the Ventricles of the Heart. 151 Studies on the Relation between Diastolic Filling and Ventricular Work in the Anesthetized Dog. By E. Berglund.

Index To Supplementum 118.

Pag.

U. S. von Euler and I. Orwén, Preparation of Extracts of Urine and Organs for Estimation of Free and Conjugated Noradrenaline and Adrenaline 1

U. S. von Euler, S. Hellner-Björkman and I. Orwén, Diurnal Variations in the Excretion of Free and Conjugated Noradrenaline and Adrenaline in Urine from Healthy Subjects 10

U. S. von Euler and S. Hellner-Björkman, Effect of Increased Adrenergic Nerve Activity on the Content of Noradrenaline and Adrenaline in Cat Organs 17

U. S. von Euler and S. Hellner-Björkman, Effect of Amine Oxidase Inhibitors on the Noradrenaline and Adrenaline Content of Cat Organs 21

U. S. von Euler and B. Zetterström, The Rôle of Amine Oxidase in the Inactivation of Catechol Amines Injected in Man 26

Chr. von Euler, U. S. von Euler and I. Floding, Biologically Inactive Catechol Derivatives in Urine 32

Chr. von Euler, Inactivation of Catechol Amines by Liver Tissue in Vitro 39

U. S. von Euler and I. Floding, A Fluorimetric Micromethod for Differential Estimation of Adrenaline and Noradrenaline 45

U. S. von Euler and I. Floding, Fluorimetric Estimation of Noradrenaline and Adrenaline in Urine 57

R. Eliasson, U. S. von Euler and L. Stjärne, Studies on the Release of the Adrenergic Neurotransmitter from the Perfused Ox Spleen. — I. Action of acids 63

U. S. von Euler and L. Stjärne, Studies on the Release of the Adrenergic Neurotransmitter from the Perfused Ox Spleen. — II. Effects of various membrane active substances 70
